About me

I'm a web developer with a background in computer science. I enjoy building modern, responsive websites using HTML, CSS, JavaScript, and Bootstrap. I'm passionate about creating clean, user-friendly interfaces that deliver a smooth user experience. Currently, I'm learning back-end development with .NET to expand my skills and become a full-stack developer. I'm always eager to learn new technologies and improve with every project I work on.

Education

Benha university 2023-2027

- computer science and artificial intelligence
- GPA 3.7

Languages

- Arabic
 - English (Good)
-

Courses
